CURRICULUM AND INSTRUCTION

Motion to approve Agenda Item 3F-1 made by Ms. McVeety Pawlewicz; seconded by Ms. Benard-Handler.
Discussion: None. Motion Carries: 6 Yes; 0 No; 0 Abstain.

1. Approval of Conferences

REPORTS

Dr. Kelly reported that New York State School Boards Association recognized members of the school board who participated in professional development opportunities in order to serve as trustees. Trustee Allie McDonough received the Board Excellence Award as a result of her completion of 150 points in professional development; Susan Bernard-Handler and 2nd Vice President Laura McVeety Pawlewicz Board Mastery Awards for completing 250 points in leadership development; President Carolyn Dodd received a Board Lifetime Achievement Award for her participation in leadership opportunities.

The Park Avenue Memorial Elementary School Gym is still closed and out of an abundance of caution, students and staff are prohibited from entering the gym. In past updates information regarding the monitoring that is in place has been shared with the board and the community to measure the level of mercury vapors which were emitted from the polyurethane floor. The gym floor was removed this past April, and additional environmental controls were established, including negative pressure and continual monitoring as part of a remediation plan developed with our environmental, architectural and project management firms. Lower levels were detected emanating from the concrete slab to which the rubberized floor had adhered. The concrete slab is now covered by two layers of 6 mil plastic sheeting. At no time since the issue was discovered has the district detected any concentration of mercury vapor outside of the gym. The New York State Legislature has advanced a proposal to establish a permissible level of mercury vapors in the air. This legislation has passed in the House and must go to the Senate for approval, and then to the Governor for his signature. The legislature also prohibits the use of polyurethane floors in any school building and prohibits school districts from covering a polyurethane floor with new flooring. The NYS Education Commissioner issued a guidance document referencing the fact that New York State does not have a standard for mercury exposure. The Department of Health in New York State recommends that schools which have this type of polyurethane flooring assess mercury exposure based on guidelines that were established by the state of Minnesota. Mercury levels are well below those limits. The district is in consultation with its architects and environmental services firm to determine next steps regarding removal of the slab.

A meeting was held with John Coverdale, President of the Center for Workplace Solutions, a Human Resources Consulting Firm, working with the district to finalize the diversity study plan and prepare for its implementation. The committee will be working with Dr. Coverdale and will be established shortly.

President Dodd, Second Vice President Pawlewicz and Dr. Kelly attended a New York State School Boards Association Policy Workshop at the Huntington Hilton this past month. The workshop was centered on positive school climate and the importance of strengthening the students' connection between the school and the community. One of the keynote presenters also discussed benefits of restorative practices as it relates to positive academic and social emotional outcomes for students. This is consistent with the work that the district is undertaking in the upcoming school year. Beginning this August, the district will be training staff through Skidmore College's program in the area of Restorative Justice.

June 12, 2019

AMHS Junior, Vidam Williams, was accepted to the prestigious high school summer research program at Brookhaven National Labs. Vidam has been a member of the districts elite research program since ninth grade. They have presented their research at several regional science exhibitions, including the Kathy Belton Science Fair at Molly College, where they received recognition, and at the Stem Diversity Summit at Farmingdale State College. They have also received first place awards at the Diversity Summit.

The Senior Awards night honored over 80 seniors who earned scholarships during a recent awards ceremony. These celebrations were focused on achievement in academics, athletic, the arts, as well as community involvement. Over \$2.4 million dollars in scholarships was awarded. Many benefactors from our local community who donate money for our student scholarships were in attendance, including: representatives from Rotary, Kiwanis, the Amityville Lions Club, the Chamber of Commerce, the Amityville Parent Teacher Association, Junior League, scholarships sponsored by our local families and local elected officials as well as representatives from the United States Army, and scores of financial awards from top colleges and universities in our region and across the nation.

With regard to our Athletics Program, this year; 98 students were named as scholar athletes, of these students, 19 were two-time scholar athletes and 12 were three-time scholar athletes. A student must earn an average of 90 or better in order to qualify to be a scholar athlete.

In the Arts, five Amityville music groups earned silver ratings, which demonstrate extraordinary technical levels and artistic skills at the major organization assessment festivals which were hosted by the New York State School Music Association. The groups receiving the designation were the Park Avenue Memorial Elementary School Chorus, led by teacher Meghan Ashe, the Edmund Miles Middle School Band, led by Michael Bonasera, the Middle School and Amityville Memorial High School Choruses, both directed by Debra Koraus, and the HS Band, conducted by Jolene Maccarone. These are rigorous and highly competitive contests. In the arts students were recognized in the annual Babylon Student Art Show, a regional competition sponsored by the Babylon Citizens Council.

REPORTS FROM BOARD TRUSTEES

Dr. Terry Fulton asked if Reynolds Hawkins was going to be involved in the Historical Black Colleges and Universities Tour. Dr. Kelly responded that Mr. Hawkins will be returning to help run the tour with chaperones from the school, and will also coach the track team.

COMMUNITY COMMENTS ON NON-AGENDA ITEMS

Michael McDonald questioned if the job of a board member was to listen to the community and to fulfill the community needs. President Dodd responded that the role of a school board is that of governance. They hire the Superintendent and the Attorney. She directed him to speak with Dr. Kelly and Mr. Plaia if he needs additional information. Dr. Kelly also responded that she had spoken with Mr. Plaia, and Ms. Pekar and it is her understanding that they will have a hard copy available to him tomorrow. Mr. McDonald questioned the number of minorities that were hired to replace the retirees. 44% of the teachers who received tenure reflected culturally and ethnically diverse backgrounds.

Carolyn Chikazunga asked for clarification on restorative justice. Dr. Kelly responded that restorative justice is an alternative approach to handling discipline and behavioral issues. The program supports our faculty and staff addressing issues that students may be experiencing. It is designed to help prevent suspension. Ms. Chickazunga asked about parent participation and meetings. Dr. Kelly stated that the data shows that we are seeing an increase in participation at all levels. An item discussed at a recent community meeting deals with the parents who do not attend school board meetings because of the length of the meeting and the lack of babysitting. Ms. Chikazunga asked if a committee could be formed to investigate providing childcare so the parents can participate in the meeting. Dr. Kelly responded that board meetings are held in public so the board can conduct their business. The primary function of these meetings is to inform the Board about the programs, projects, initiatives and other information so they make informed decisions. Babysitting is something we can look into for the next school year. Ms. Chikagunga also commented that there is no discussion on agenda items. Dr. Kelly

June 12, 2019

responded that the board gets its agenda in advance and the board has the opportunity to ask questions. President Dodd also commented that everything is digital now, and that was not the case when Ms. Chikazunga was a board member. Dr. Fulton also agreed and stated that the community should come to a meeting to have their issues addressed.

Motion to adjourn Open Meeting at 10:22 p.m. made by Ms. McVeety Pawlewicz; second by Ms. McDonough.
Motion Carries: 6 Yes; 0 No; 0 Abstain.
